

KUNAL GUPTA

Full Stack Developer | B.Tech (ECE), Delhi Technological University (2022–2026)

kunal.gupta.91165@gmail.com | (+91) 9818479466

 github.com/Kunal-Gupta28 |  linkedin.com/in/kunalgupta-dev |  Portfolio

Full Stack Developer with hands-on experience building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Developed real-time systems involving authentication, payments, geolocation tracking, and WebSocket communication. Strong foundation in frontend and backend development with Resolved 900+ student queries across JavaScript, React, Node.js, MongoDB, and backend development.

SKILLS

- **Languages** : JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Frontend** : React.js, Tailwind CSS, Material-UI
- **Backend** : Node.js, Express.js, REST APIs, Socket.io
- **Database** : MongoDB, MySQL, PostgreSQL
- **Tools** : Git, GitHub, Postman, Docker
- **Concepts** : JWT Authentication, Real-time Systems, API Integration

PROJECTS

❖ Ride Booking App | MERN Stack

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, Razorpay, Google Maps API

Live Demo | GitHub Repository

- Built a real-time ride-booking system with live location tracking and dynamic pricing
- Built real-time ride updates using Socket.io, enabling instant driver-rider synchronization.
- Integrated Razorpay for secure payment processing
- Designed REST APIs and WebSocket architecture for concurrent user interactions and real-time state updates.

❖ CraftChat | MERN Stack

Tech Stack: React.js, Node.js, Express.js, MongoDB, Socket.io, JWT, Gemini API, WebContainer API

Live Demo | GitHub Repository

- Developed a real-time chat and collaboration platform using Socket.io
- Implemented JWT-based authentication and role-based access control
- Designed backend to handle multiple concurrent users efficiently
- Built scalable APIs and optimized data flow using MongoDB
- Integrated Gemini API to provide AI-assisted coding support
- Integrated WebContainer API to execute and preview code directly in the browser

❖ Image Enhancer | React + AI API

Live Demo | GitHub Repository

- Built an AI-powered image enhancement tool using external APIs
- Designed efficient upload and preview system for large image files
- Optimized frontend performance for better user experience

EXPERIENCE

Teaching Assistant | Stealth EdTech Startup

(June 2025 - October 2025)

- Resolved 900+ student queries related to JavaScript, React, Node.js, MongoDB, and backend development.
- Mentored students in debugging, API development, and real-world project implementation.

EDUCATION

- B.Tech (ECE) | Delhi Technological University (2022-2026)
- XII (CBSE) | PATRACHAR VIDYALAYA (2021-2022)

ACHIEVEMENTS & INITIATIVES

- Resolved 900+ technical queries across JavaScript, React, Node.js, and MongoDB
- Built and deployed 3+ full-stack applications using MERN stack
- Implemented real-time systems using Socket.io, JWT Authentication, and REST APIs
